FINANCIAL POLICY

At Yakima Integrative Health, we understand that the medical system can result in complicated billing structures that cause stress for our patients, so we try to be completely transparent with our billing process. There are two models for billing that we use: insurance billing and direct pay. Below you will find information about both models.

INSURED PATIENTS

A list of insurances that our office can bill can be found on our website (address can be found in header). Please note that insurance benefits vary from plan to plan, and that your health insurance policy is an agreement between the Health Plan and yourself. We at Yakima Integrative Health make every effort to support billing your health insurance for your benefit, but we have found that as an integrative medical clinic, not all services will be deemed medically necessary by your health insurance carrier.

For insurances that we cannot bill or that do not cover the services provided in your treatment, we provide a transparent pricing structure at a discounted rate for direct-to-patient billing. You can find all the information necessary in the “Direct Pay Patients” section below. To know for sure whether your plan covers the cost of services provided at our clinic, please contact your insurance or visit their website to find out if the specific evaluation and procedure codes for your treatment plan are covered. Please contact the front office with any questions about the coding and billing.

If medical treatment is requested during an annual physical exam, the provider bills the insurance carrier for those services separately from the annual exam charge. Similarly, if the provider is credentialed both as an acupuncturist and naturopath and both modalities are used during the visit, the provider will bill for both services.

The amount of office or preventative visits, as well as the amount of acupuncture, massage therapy or osseous manipulation therapy visits, depends on your insurance plan. If coverage is denied due to overage of visits, you will be responsible for paying the balance. If a referral is needed per your insurance plan for coverage, please ensure the referral is submitted to your insurance before the time of your appointment.

FEES AT TIME OF SERVICE

For insurance plans that require copay, these copays are due at the time of service. It is the patient's responsibility to know copay as well as what will and will not be covered by their insurance.

Because Yakima Integrative Health provides personalized and comprehensive medicine that does not always fit the typical medical model that insurance companies pay, there is a growing discrepancy between services provided and the reimbursement by insurance companies. As a consequence of this, YIH has instituted a **non-covered service fee for all insured patients.**

This out of pocket per visit fee helps cover the administrative costs, care coordination and other services not covered by your insurance plan. We will continue to bill your insurance for services they will cover and have added the non-covered service fee for services your insurance will not cover.

An example of some of these services not covered by insurance may include:

- Administrative work such as completing medical forms
- Managing labs and medication refills
- Messaging patients in the portal and doing individual research on behalf of the patient
- Managing the vaccine program
- The naturopathic care experience

The non-covered service fee will be \$20 per visit, due at time of service.

DIRECT PAY PATIENTS

Visits that are direct-to-patient pay are at a flat-rate that is discounted from the full rate. Visits will be billed in accordance with what is performed at the time of visits; any additional testing or procedure performed at the office will be billed separately. Superbills (invoiced lists of services) can be provided after the visit.

FINANCIAL POLICY AGREEMENT

I, _____, a patient or legal representative of a patient of Yakima Integrative Health, do hereby acknowledge that my health insurance policy is an arrangement between the Health Plan and myself.

I understand it will be my responsibility to know my insurance policy and its benefits before arriving to my appointment. I also understand that certain services and tests may be ordered by the doctors located at Yakima Integrative Health which may not be covered by my insurance. I agree to be financially responsible for these services and tests should I consent for them to be performed.

I understand that I am financially responsible for any and all services and procedures that are performed with my consent for treatment, should I be paying directly or my insurance or third party payer deny or provide partial benefits for the services performed.

I understand that should I be a direct pay patient, I am financially responsible for all costs. I understand that payment is due at the time of service.

Acupuncture: Insertion of special sterilized needles at specific points on the body

Topical Treatments and Prepping (includes cupping—a technique using glass cups on the surface of the skin with usually a heat created vacuum; and Gua Sha—rubbing on an area of the body with a blunt, round instrument)

Electromagnetic and Thermal Therapies (induces the use of ultrasound, low and high volt electrical muscle stimulation, transcutaneous electrical stimulation, microcurrent stimulation, infrared and ultraviolet therapies or moxa—warming or indirect burning of an acupuncture point, and hydrotherapies)

Potential Risks: Pain, discomfort, blistering, discolorations, infections, burns, loss of consciousness, or deep tissue injury from needle insertions, topical procedures, heat or friction therapies, electromagnetic and hydrotherapies; allergic reactions to prescribed herbs or supplements; and aggravation of pre-existing symptoms.

Potential Benefits: Restoration of health and the body's maximal functional capacity, relief of pain and symptoms of disease, assistance in injury and disease recovery and prevention of disease or its progression.

Notice to Pregnant Women: All female patients must alert the doctor if they know or suspect that they are pregnant, since some of the therapies used could present a risk to the pregnancy. We do not use labor-stimulation acupuncture points or any labor-inducing substances unless the treatment is specifically for the induction of labor. A treatment intended to induce labor requires a letter from a primary care provider authorizing or recommending such a treatment.
